

NTC's Core Competency Certification

WHAT

An independent certification program focused on the Core Competencies of the low voltage industry. Core Competency Certification is available the four major system categories of the low voltage industry, with four levels of certification in each category. Level 1 certification is a basic certification for those with entry level experience, Level 4 is an advanced certification for extensive system experience.

<u>Intrusion Systems</u>	<u>Video Systems</u>	<u>Fire Alarm Systems</u>	<u>Access Control Systems</u>
Level 1	Level 1	Level 1	Level 1
Level 2	Level 2	Level 2	Level 2
Level 3	Level 3	Level 3	Level 3
Level 4	Level 4	Level 4	Level 4

WHO

For Employers - Core Competency Certification provides a method of evaluating the skills of current and potential employees. Core Competency Certification can be used to gauge current skills levels and track growth of current team members. Core Competency Certification can also be used to evaluate the skills of potential employees, ensuring they have the skills required for the position they are being hired for.

For Employees - Core Competency Certification provides proof of technical knowledge and job skill to employers. Attaining Core Competency Certification proves a level of knowledge of specific low voltage system categories and the job skills required to work with these types of systems.

HOW

Core Competency Certification exams are available on any computer with Internet access. Core Competency Certification is a KNOWLEDGE based certification program - it is based on the knowledge an individual has, not on the number of years of experience. Core Competency Certification is a real world certification program - questions are based on industry best practices and commonly used, currently available equipment. Core Competency Certification is an open reference test - any resource an individual would use in their normal course of work can be used as a reference in the exam.

INVESTMENT

Core Competency Certification is \$99 for 24 hours of unlimited access to ALL exam categories at ALL levels. Test takers may take any exam category at any level, with certification awarded at the highest level successfully passed. Since there are NO PREQUISITES OR REQUIREMENTS for certification levels, the test taker can choose the category and level of certification they think they are capable of achieving.
