

## **Security Systems Training**

National Training Center's Security Training (SEC) is 32 hours of online training. Training covers the three major categories of security systems (intrusion, video, and access control) as well as networking.

### **Intrusion (Burglar Alarm) Systems (8 Hours)**

- Introduction/Design Considerations
- Control Panels, part 1
- Control Panels, part 2
- Perimeter Detection
- Interior Detection
- Notification
- Communication
- Power

### **Video Security Systems (8 Hours)**

- Introduction/Design Considerations
- Cameras
- Lenses
- Cable and Power
- Recording, part 1
- Recording, part 2
- Housings, Domes, and Accessories
- Alternative Means of Video Transmission

### Access Control (8 Hours)

- Introduction/Design Considerations
- Readers
- Lock Hardware Types
- Electric Strikes
- Magnetic Locks
- Egress
- Power
- Telephone & Gate Access

### Networking (8 Hours)

- Introduction/Design Considerations
- Network Structure
- Network Electronics
- Network Management
- Internet
- Wireless Networks
- Network Infrastructure
- Network Security Application
