For Immediate Release

NATIONAL TRAINING CENTER ANNOUNCES - 'FREE FRIDAY'S'

National Training Center (NTC), the leading training provider for the industry is pleased to announce the addition of "FREE FRIDAYS", a webinar series. This free webinar series adds to NTC's wide variety of professional training options. Vice President, Bryan McLane discusses the details, "The webinars, which will be offered on the second Friday of each month, will cover a variety of training topics and will be offered for FREE to anyone interested in attending the session. The first FREE FRIDAYS webinar will be conducted on Friday, June 11th at noon Eastern (9:00 AM Pacific) and will cover the NEW NICET CBT exam for Fire Alarm Systems Certification."

To register for FREE FRIDAYS, visit www.NationalTrainingCenter.net

About NTC

National Training Center (NTC) was founded in 2002 by Charles Aulner. The company was started on a shoestring budget and an idea, 'to provide the Very Best in Training'. In just a few years NTC grew to be the most respected and recognized training provider to the low voltage industry. NTC's staff of industry professionals continues to live up to that tradition today. NTC provides training to meet your company's needs, offering training solutions through their live training, Webinars, high quality online recorded training (available 24/7), and

complete line of professional references. For more information,
